platforms**

**Medicine
and health**

**Advertising
and promotion**

Logistics

SERVICES

Fundamental to the Zetacarton value system is the support that **only a solid industry knowledge can provide**, including in the pre-sales and after-sales phases, so that the customer is always supported by vertical advice.

TECHNOLOGY

An innovative corrugator can produce **corrugated cardboard in sheets** in E-EB-B-C-BC flute typologies, for the subsequent conversion into boxes. The fully automated plant, with a maximum width of 2500 mm, is managed by a control system that enables the operator to constantly monitor the production.

CUSTOMIZATION

We can meet all market requirements in terms of **features, dimensions and printing**: production ranges from regular boxes to industrial packaging of large sizes, made specifically to meet the customer's needs. For customization, you can choose between flexographic printing in up to four colours or four-color digital printing.

TRANSPORT

Zetacarton guarantees scheduled deliveries and on-time shipments thanks to its own fleet of vehicles.

SUSTAINABILITY

Zetacarton has developed the **Sustainability Report**, a tool that documents with continuity and transparency the commitments made and the results achieved in the area of Corporate Responsibility, with particular attention to the economic area, the environmental and social impact.
